

# GAPDH Rabbit Polyclonal Antibody

Catalog No.: RCA59

## Basic Information

### Information

<b>Reactivity</b>	H,M,R,Mk,Ch,Hm,Sh,Xenopus
<b>Immunogen</b>	Recombinant Protein
<b>Host</b>	Rabbit
<b>Isotype</b>	IgG
<b>Storage Buffer &amp; Condition</b>	1mg/ml in PBS, pH 7.4, containing 0.02% sodium azide and 50% glycerol.
<b>Observed MW</b>	37KD

### Applications

### Recommended Dilution

<b>WB</b>	1:5,000
<b>IHC</b>	1:200

## Preparation & Storage

<b>Storage</b>	Store at -20°C. Stable for one year from the date of shipment.
<b>Shipping</b>	Bule Ice

## Experimental Data

Western blot analysis of 293T (1), Rat brain (2), NIH 3T3(3), Sheep Muscle(4), Rabbit testis(5) with GAPDH rabbit polyclonal diluted at 1:20,000.

## Background

Glyceraldehyde 3 phosphate dehydrogenase (GAPDH) is well known as one of the key enzymes involved in glycolysis. GAPDH is constitutively expressed in almost all tissues at high levels, therefore antibodies against GAPDH are useful as loading controls for Western Blotting. Some physiological factors, such as hypoxia and diabetes, increase GAPDH expression in certain cell types.
